Re: Georgia Institute of Technology Project No. #-20-635
GMC Purchase Order #G036092

Dear Klaus:

This is to inform you that the following has been done on the project.

Necessary equipment for laboratory studies was purchased and manufactured by the School of Civil Engineering

This equipment was tried and found operable. However, several modifications may be needed in the course of the study.

Proposals have been submitted to the U.S. EPA. However, this work cannot be supported by EPA at the present time. I am looking for other sources of support.

Regardless of the availability of funds, I plan to start the study in February 1984. You will be informed on the work progress.

This letter is the final report on the project.

Kind regards.

Sincerely yours,

Boris Khudenko
